SCHOOL SPECIFIC

BAPTIST HEALTH Schools Little Rock-
School of Practical Nursing

NEW STUDENT

WELCOME

The BAPTIST HEALTH Schools Little Rock - School of Practical Nursing welcomes you as a student. You have made an important decision in choosing nursing as a career. This is an exciting time to enter the profession of nursing. The next year will be a rewarding time as you actively participate on the health care team while you learn about the very important role of the Practical Nurse and develop a sense of pride and achievement in your chosen career.

The Purpose of this *Student Handbook* is to acquaint you with the policies, rules and regulations of the BAPTIST HEALTH Schools Little Rock - School of Practical Nursing, familiarize you with the objectives of both the didactic and clinical portions of the program, and inform you of the evaluative processes that will be used to determine your progress in both phases of the program.

May you find happiness and fulfillment in this profession and acquire not only the skills and knowledge necessary for a successful career but also those which will lead to your cultural and intellectual advancement.

Sincerely,
Administration and Faculty

MISSION

The BAPTIST HEALTH Schools Little Rock - School of Practical Nursing exists to prepare the graduate to participate on the healthcare team by contributing to the nursing process within established standards of practice for the Licensed Practical Nurse.

The school provides a learning environment to the student through classroom and clinical experiences which are inclusive of the BAPTIST HEALTH Values of Service, Honesty, Respect, Stewardship and Performance with a commitment to providing quality patient care.

PROGRAM OVERVIEW

The school is committed to providing the highest standards of education, training, and continuous development opportunities to the students' and, attracts highly qualified applicants because of its reputation for excellence.

The school exemplifies the philosophy and Values of BH by emphasizing the values of Respect, Service, Honesty, Stewardship, and Performance, and by a commitment to providing quality patient care.

Christian beliefs, attitudes, and spiritual perspectives as they apply in providing care for the ill are emphasized, as well as personal and professional conduct.

A competent individual nurse in the healthcare field of today must prove to be proficient in the profession of nursing, but must also possess an appreciation of his or her role within the healthcare field and demonstrate an understanding of the organizational culture within the setting of that practice.

The faculty is committed to providing entry level job competency graduates to the healthcare community by promoting high standards of nursing education and for the professional development of students. The program of study curriculum plan is found herein.

HISTORY

In response to a shortage of Practical Nurses, the Board of Trustee of Arkansas Baptist Hospital approved the operation of School of Practical Nursing in July 1964. In September 1964, the Arkansas State Board of Nursing granted initial approval of the curriculum and the first class enrolled. Since opening, more than 2000 practical nurses have completed the one year program. Graduates of the school are eligible to write the national licensing examination (NCLEX). These graduates have worked throughout the continental United States and several foreign countries.

In January 1990 , the BAPTIST HEALTH Schools Little Rock - School of Practical Nursing became the first Practical Nursing program in Arkansas to be granted initial accreditation by the Council of Practical Nursing Programs, National League for Nursing Accrediting Commission (NLNAC). In 2008, BAPTIST HEALTH Schools Little Rock received accreditation from the Accrediting Bureau of Health Education Schools (ABHES). In addition to NLNAC and ABHES accreditation, the school is fully approved by the Arkansas State Board of Nursing (ASBN).

BAPTIST HEALTH SCHOOLS LITTLE ROCK- SCHOOL OF PRACTICAL NURSING PHILOSOPHY

The BAPTIST HEALTH Schools Little Rock - School of Practical Nursing is an integral part of BAPTIST HEALTH, recognizing and supporting the Belief, Mission and Values statements of the sponsoring institution.

We, the faculty, believe that the individual is a physiological, psychological, and sociological being who is worthy of consideration, respect and dignity. Physical, emotional, social and spiritual needs exist in health and illness, and changes in any of these basic needs will influence the total individual. Meeting the individual's basic needs promotes health and well-ness, maintains human dignity and enhances the sense of well-being.

We believe society is composed of individuals who share mutual interdependence for survival and well-being. All societies have complex cultures made up of various lifestyles, traditions and values which must be acknowledged in healthcare. Each member of society is a unique being and has personalized needs.

We believe nursing is the implementation of specific knowledge and skills to promote and maintain health or to meet individual needs during periods of illness or injury. Each practitioner is accountable for a systematic approach to problem-solving without regard to age, color, creed, physical challenges, gender, marital status, national origin, race, or religion.

We believe practical nursing is the provision of direct patient care under the supervision of the licensed physician and/or registered nurse. Specific knowledge and skills are acquired through a period of formal education. The Licensed Practical Nurse is accountable for performing only those acts of nursing for which she/he has been educated. A competent Practical Nurse is an important part of the healthcare team.

We believe the teaching-learning process is accomplished through the cooperative effort of the faculty and student. Simple to complex learning opportunities are provided through guided studies developed to meet individual and specific needs. Teaching is a form of interactive communication which offers opportunities for learning. Learning has occurred when new knowledge, skills and attitudes have caused a change in behavior.

We believe nursing education is a process of planned and organized learning experiences established to encourage the development of knowledge, skills and attitudes used to meet various human needs in a variety of situations.

We believe education is a life-long process and the dynamic nature of healthcare causes education to be a continuous process. Each practitioner is responsible for continuing educational development and professional growth in order to maintain a current basis for practice.

PROGRAM VALUES

The BAPTIST HEALTH Schools Little Rock - School of Practical Nursing supports the values of BAPTIST HEALTH and recognizes as the official school values: Service, Honesty, Respect, Stewardship and Performance. The values are presented in the BAPTIST HEALTH Code of Ethical Conduct.

PROGRAM OBJECTIVES

1. Participate on the health care team by contributing to the Nursing Process within established standards of practice for the Licensed Practical Nurse.
2. Provide nursing care respecting the uniqueness of each individual.
3. Utilize educational opportunities for continued professional growth.
4. Adhere to defined standards of nursing practice.
5. Practice stewardship in the utilization of resources.

ADMINISTRATIVE INFORMATION

The school is comprised of faculty, students, support staff and a program of studies which offers learning experiences that strives to prepare students for entry in the role of practical nursing. Faculty are responsible for planning, implementing and evaluating the total program of studies in accordance with Arkansas State Board of Nursing Standards (minimum requirements) , National League for Nursing Accrediting Commission Standards and Criteria and the Accrediting Bureau of Health Education Schools Standards.

FACULTY CLASS SPONSORS

Each entering class is assigned two (2) faculty sponsors. The sponsors are faculty members who volunteer for the assignment because they consider it a privilege to contribute time, knowledge and expertise to reward student professional development. The general role of class sponsors is to 1) attend class meetings, 2) coordinate class officer elections, 3) assist class as needed, 4) interpret policies (BH, the school and affiliating college or university) that relate to class business, and 5) follow class sponsor guidelines and work closely with dean, coordinator and semester leader or designee.

FACULTY ORGANIZATION

The Faculty Organization (FO) provides each member with the authority and responsibility to accomplish the goal of the school by participating in the planning, development, implementation and evaluation of school outcomes. All faculty are members and serve on various standing committees and task forces. Committees fulfill specific functions that in turn, fulfill the overall functions of the organization. Student representatives are invited, when appropriate, to serve on standing committees, sub-committees and task force(s).

ADMINISTRATIVE SERVICES

School administrative staff provides numerous student services free of charge to the student (except for transcripts). A student needing such services is required to obtain the Request For Administrative Service Form from the Forms Rack from Suite 1004 and submit completed form to Administrative Staff in Student Services.

Administrative staff will follow through with fulfilling the request for the student; two (2) weeks or ten (10) school days is usual time period needed to complete most requests. Incomplete forms will delay processing of request.

GENERAL INFORMATION

The school will provide the student with the highest standards of education and training as identified in the school mission, philosophy and objectives. The belief values, mission and Code of Ethical Conduct of BH will help guide the student toward attaining customer satisfaction.

The faculty of BAPTIST HEALTH Schools Little Rock - School of Practical Nursing (BHSLR-SPN) believes the school should provide a learning environment to the student through the classroom and clinical work, inclusive of the BH values of service, honesty, respect, stewardship, and performance with a commitment to providing quality patient care.

The Dean of Nursing is responsible for administrative activities of the school. The coordinator is responsible for facilitating and managing the day to day operations of the school. Semester Leaders assist the coordinator in managing semester activities. The faculties are responsible for selection of applicants for admission, maintenance of student records, scheduling, grade reporting, teaching, coordination of classroom teaching and clinical rotation supervision.

The audience in the BHSLR-SPN include the students who have been admitted into the program, the department of nursing in the hospitals, the support staff, and the administrative staff. It is the goal of the school to provide support to each member of the audience.

BHSLR-SPN is approved by the Arkansas State Board of Nursing (ASBN) and Accredited by the National League for

Nursing Accrediting Commission (NLNAC) and the Accrediting Bureau of Health Education Schools (ABHES).

The program of study consists of one academic year, including forty four weeks (two twenty two weeks of instruction) of didactic and clinical experiences which are designed to enhance the student's educational experience. The program is divided into two semesters moving from simple to complex activities. The major clinical experiences are: BAPTIST HEALTH Medical Center-Little Rock, BAPTIST HEALTH Medical Center-North Little Rock, BAPTIST HEALTH Rehabilitation Institute-Little Rock, Arkansas Children's Hospital, and selected Long Term Care facilities.

Graduates are eligible to apply and to write for the National Council Licensing Examination (NCLEX-PN).

Persons who have pleaded guilty, nolo contendere to, or been found guilty of a crime (as identified in Arkansas Code, Act 1208 of 1999 Legislative Session) may not be eligible to receive or hold a license issued by Arkansas State Board of Nursing.

June 2011, TBA	Commencement **

* **Please note that Welcome Day and Orientation are mandatory.**

** Beginning June 2010 and thereafter, BHSLR will hold one annual commencement ceremony in June. December graduates have the option to participate in commencement the following June. BHSLR commencement ceremonies do not confer official graduate status.

SCHOOL POLICIES

ACADEMIC

ADVISING/COUNSELING

Faculty serve as academic advisors to students. A student is notified of advisor assignment at the beginning of each semester. Faculty advisors post a listing of date and time available on their office door. A student may sign up for an available time to meet with assigned advisor. A student is expected to contact his/her academic advisor for an initial conference and in the event a score of 77% or above is not achieved on a course examination. Faculty may require an advisee to complete specific activities (time analysis, view film, etc.) as a result of counseling session. Additional conferences are initiated through advisor-advisee arrangements.

Academic advising is available to a student in adjustment to student role, educational planning, and socialization into nursing, study habits, test taking, and limited tutoring. If extensive tutoring is needed, the school counselor should be contacted for reference. Students with concerns beyond academics are referred to the schools counselor.

ACADEMIC PROGRESS

Academic progress in the theory component is determined by use of the grading scale as identified in the General section of the *Student Handbook*. Clinical Laboratory and or Nursing Skills laboratory grading scale is used as follows:

Clinical Laboratory and Nursing Skills Laboratory if applicable:

<u>Quality Rating</u>	<u>Rating Symbol</u>	<u>Value</u>
Satisfactory	S	NA
Unsatisfactory	U	NA
Incomplete	I	NA
No progression/No promotion	NP	NA
Not Observed	NO	NA
Not applicable	NA	NA
Opportunity Not Available	ONA	NA

Theory grade achievement is measured by written examinations, quizzes and other assignments as required.

Clinical and skills laboratory, if applicable, achievement is measured by evaluation of established indicators.

An "I" grade becomes a final grade of "F", if incomplete course work is not completed within established time-frame. A final grade of "U" (Unsatisfactory) in a course clinical or skills laboratory component becomes a final course grade of "F".

Student must achieve a minimum final grade of "C"(77%) in each course theory component and a final grade of "S" (Satisfactory) in each course clinical or skills laboratory component (as applicable) in order to pass the course. Student who does not achieve the required grade is subject to academic disciplinary policies. Final course grade is recorded on the course Final Grade Record, and recorded on the official transcript of the school.

Overall satisfactory in academics is required for student to progress through the curriculum and qualify as a candidate for graduation.

ACADEMIC PROBATION

The status of academic probation indicates that the student's continued enrollment in the school is at risk. A student is placed on academic probation for academic reasons by the respective faculty, semester leader, coordinator or designee. Probationary terms are determined on an individual basis and conditions specified must be fulfilled within a defined period of time before the status is changed. Student that is placed on academic probation for any course(s) within a semester is on academic probation for all courses within identified semester.

Failure to meet designated probationary terms will result in either academic suspension or academic dismissal. The process described in the Corrective Program policy in the *Student Handbook: General Section* is followed.

ACADEMIC SUSPENSION: REENTRY FOR RESUMPTION OF STUDY

An academically suspended student may apply for selection to reenter the program of study. Selection for reentry is on a competitive basis and is not guaranteed. Academic suspension requirements must be met prior to application for re entry consideration, as presented within Corrective Program discussion.

ATTENDANCE, ABSENCE AND TARDY

Student attendance, absence and tardy are described in the following summarized policies:

Regular and prompt attendance at all scheduled learning experiences is required in order to meet the requirements and objectives of each course and professional development. Student attendance is cumulative and is recorded for the entire length of the program, not by course, therefore absence and/or tardy in any course contributes to absence and/or tardy for the length of the program.

Number of absences and/or tardy, as well as patterns of absence and / or tardy from learning activities will be monitored Excessive absences and/or tardiness will result in corrective action up to and including suspension and/or dismissal from the program.

An attendance record is maintained on each student and is the official record of student attendance. The attendance sheet must be initialed (classroom)/signed (clinical) by the student during scheduled learning activity. It is the student responsibility to sign the attendance sheet upon arrival to clinical and initial it hourly during classroom activities. The attendance sheet is not altered after the date located on the attendance sheet. Student initialing/signing attendance sheet for another individual or signing ahead of designated time will be subject to corrective action. Tardy student writes time of arrival on attendance sheet.

Attendance at scheduled learning experiences during inclement weather, including winter storms is expected unless otherwise notified by faculty or school official. The process described in the Inclement Weather policy in the *Student Handbook: General Section* is followed.

An absence of five (5) consecutive school days without proper notification to course faculty will result in administrative withdrawal of the student by the school.

Student is required to notify class or clinical instructor, for all absences. Absence must be reported by student unless the student is medically incapacitated to the point that he/she cannot communicate. Student notifies assigned clinical instructor, in person, by telephone, voice-mail, or pager, prior to the scheduled class, clinical or activity starting time. Failure to adhere to proper notification, repeated absences, and/or tardiness will result in progressive corrective actions.

Student who is absent from classroom or scheduled clinical learning experiences due to illness, accident or medical condition which interferes with ability to perform essential functions will be required to provide official documentation of clearance, from intervening professional, prior to resuming study.

Student with limitations or restrictions which interfere with ability to perform essential functions will not return to class and/or clinical until clearance documentation, from intervening professional, is received. Students with stated limitations or restrictions may not return to class/clinical until these limitations or restrictions are lifted or “if reasonable accommodation” can be made as determined by the school. Extended absence, limitations or restrictions in excess of five (5) days will necessitate student withdrawal and repeat of courses. Refer to re entry policy contained herein.

Excused absence, as defined herein, must be verified with official written documentation in order to be officially excused. Official documentation must be submitted to assigned class or clinical instructor prior to returning to the next scheduled class, clinical or learning activity in order to return to school. Failure to provide documentation according to established guidelines will result in absence being unexcused.

Funeral leave must be approved by coordinator or designee, refer to Funeral Leave policy located herein.

Clinical Absence:

Student is required to report clinical absences to assigned clinical instructor before 0700. Absences must be reported by student unless the student is medically incapacitated to the point that he/she cannot communicate. Student may not stay in clinical if more than one (1) hour late.

Leaving clinical learning experience prior to designated release time will count as hours absent.

Faculty have the discretion in requiring students to complete clinical makeup for unexcused clinical absences. The student’s follow - through with policy regarding the absence, achievement of course objectives, clinical progression, and previous attendance record will be considered when making the decision.

Clinical makeup will be in increments of eight (8) hours and will be completed, prior to progression into the next semester, during designated clinical makeup date(s).

Clinical make up that is required for courses in semester II will be completed, prior to completion of graduation requirements, during designated clinical makeup date(s).

Clinical make up day equals eight (8) hours.

Clinical make up fee is \$10.00 per hour and is payable to BHSLR Business office prior to scheduled make up. Student must bring paid receipt to clinical instructor prior to scheduled clinical make up.

Classroom Absence:

Student is required to attend 85 % or greater of scheduled classroom learning experiences in order to meet course requirement of satisfactory attendance.

Attendance Definitions:

Absence: Not present at scheduled learning experience

Excused absence: An absence which does not count against a student attendance record, limited to; court appearances, military duty and approved funeral leave for immediate family member (spouse, parent, brother, sister, child, grandparent, mother or father-in-law), and unanticipated, unavoidable, accident or illness resulting in student hospitalization*.

Unexcused absence: Absence which counts against a student attendance record; including (but not limited to)

absence due to minor illness, medical condition or a physician's, nurse practitioner's; or advanced practice nurse's order.

Tardy: Failure of student to appear at scheduled learning experience at designated start time. For purposes of attendance, one (1) minute - one (1) hour equals a tardy.

* Extended absence, limitations or restrictions in excess of five (5) days will necessitate student withdrawal and repeat of courses. Refer to re entry policy herein.

ATTENDANCE: PERFECT INITIATIVE

BHSLR-SPN A.T.T.E.N.D. (A Time To Encourage & Nurture Dependability) Program designed is to encourage student perfect attendance at all educational learning experiences.

Student enrolled in BHSLR-SPN has the opportunity to participate in the A.T.T.E.N.D. (A Time To Encourage & Nurture Dependability) Program by maintaining continuous perfect attendance.

Student with continuous perfect attendance will receive special recognition at specified times throughout the program of study.

The definition of PERFECT ATTENDANCE is as follows:

Student is neither absent nor tardy in any scheduled class or clinical during the semester. Exception is if the student is exempted from a class as a result of approved transfer credit and excused absences as identified by policy.

PROCESS: 1. At the end of each semester, attendance keeper completes Perfect Attendance form retains original in attendance notebook and submits copy to Coordinator.

BREAKS AND MEAL TIMES

Break and meal times are provided for the students; however, patient safety and care may require a rescheduling at times. The usual time frame follows:

Classroom:

Break : ten (10) minutes between classroom instruction hours.
Meal: one (1) hour.

Clinical:

Break: one (1) twenty minute in a.m.
Meal: forty-five (45) minutes.

To ensure continued patient care and safety, students are required to report to the responsible faculty or clinical nurse responsible for their patients prior to leaving on break or meal and on return to the clinical unit after break or meal.

Breaks are not taken consecutively with meal time.

CLINICAL LABORATORY POLICIES AND EXPECTATIONS

Policies related to student conduct in the clinical laboratory are fundamental to patient or student safety and necessary for a high quality of service and overall operations within the clinical area. The following policies are in effect beginning with the first scheduled clinical day.

1. Permission must be obtained from assigned clinical faculty or respective staff nurse before leaving the assigned clinical laboratory unit. Permission must be obtained from the Semester Leader or Coordinator before leaving early from a class or clinical; failure to do so shall result in corrective action by the school.

2. Student identification badge must be worn at all times on upper left shoulder area, with photo, name and title visible. Failure to wear identification badge as required will result in corrective action by the school.
3. Food or beverages are not permitted in the clinical laboratory except in cafeteria.
4. During clinical laboratory, use of cell phones and/or pagers is not permitted. If a student carries a cell phone and/or pager while in classroom or clinical, the devices must be turned "off". The use of electronic devices with camera or videoing ability is not permitted. Failure to adhere to expectations will result in corrective action by the school.
5. The clinical instructor is responsible for the clinical education and conduct of assigned student(s). Directions for patient care from the responsible staff RN or designated LPN must be followed in order to maintain safety and continuity of patient care: **not to do so, shall result in immediate and severe corrective action by the school.**
6. Permission must be obtained from the responsible staff RN, designated LPN or clinical instructor before going on break: one (1) break in morning, time allowed for break is twenty (20) minutes.
7. Meal breaks are for forty-five (45 minutes). A student may, on occasion, be asked to delay meal or break to assist in cases of emergencies. The evening shift meal break is approximately around 1800 p.m.
8. Gum chewing is not permitted in clinical laboratory.
9. Books and personal articles may be stored in lockers if available in the clinical area; however students are encouraged to keep these items off the unit so they do not interfere with patient care.
10. Student is not allowed to have personal visitors while in the clinical laboratory area.
11. Student is expected to report immediately any accident or error to the assigned clinical instructor of the area regardless of how minor it might seem to be.
12. During the clinical laboratory practice, the student is under direct supervision of a Registered Nurse (RN) and the Clinical Instructor. The student is responsible for informing the Semester Leader and their respective Coordinator if direct supervision does not occur. Student direct supervision consent forms are signed by the student before clinical rotations begin and are kept in the Student Record.
13. When the clinical staff is not busy, the student is expected to check with the clinical supervisor in charge, for additional clinical assignments and learning experiences.
14. Students are required to be in their assigned clinical area either before or at their scheduled time. Arriving past the scheduled time is a tardy.
15. When the student is in a clinical laboratory requiring surgical attire, the student must wear lab coat over the scrubs when leaving the area. Surgical attire shall not be worn out of the department or hospital.
16. Students are not permitted to be on the Internet during the clinical rotation unless assigned to do so by the clinical instructor.
17. All student assigned practice and learning rotations in a clinical laboratory setting shall arrive in dress code, on time, remain on site, take breaks and meal times and depart from clinical site

according to school policies, student handbook and course requirements as reflected in the course syllabi for the course in which enrolled (policy clinical requirements).

18. Supervising clinical faculty will ensure that the student assigned a clinical rotation abides by the above policy.
19. Student must give “report” on assigned patient status and care to staff RN, designated LPN or instructor before leaving the clinical area. Permission to leave clinical site must be obtained from Instructor or designee prior to leaving.
20. A final “report” must be given to the staff RN or designated LPN responsible for the patient prior to departing the clinical area and the facility at the end of the clinical assigned time.
 - 20.1 The report must include all nursing care provided by the student to assigned patient.
 - 20.2 Status of patient’s condition.
 - 20.3 Other as indicated.
21. If a clinical instructor, responsible RN, designated LPN or clinical supervisor directs the students to remain in the area or in the facility, beyond the clinical assigned time, the student must remain until released to leave. This is especially true in the following situations:
 - 21.1 Controlled substance (narcotics, etc) count is deemed erroneous,
 - 21.2 Medication error(s), related to assigned patient,
 - 21.3 Assigned patient’s condition warrants,
 - 21.4 Theft of property (patient, employee or others),
 - 21.5 Missing portion(s) of assigned patient’s medical record,
 - 21.6 Time of “Disaster” as defined by BAPTIST HEALTH, and
 - 21.7 “Dr. Red Stat” period.
22. Additional requirements not reflected herein, may be found in a respective nursing course syllabus.
 - 22.1 Other situations as deemed necessary by the assigned clinical instructor,
23. In situations regarding patient safety and care provided by a student, and the student and instructor have left the facility, they must comply with the facility’s request, up to and including return to facility to document etc.
24. Student provides the care required for assigned patient(s) according to level of learning and competency, or as directed by clinical instructor, responsible RN, or designated LPN.

CONDITIONAL SELECTION STATUS

A student selected on academic conditional status, fulfills all stipulated conditions before status is considered for change. The maximum enrollment time for conditional selected students to complete conditions is one (1) semester. If the student is not successful during that time, the individual will be administratively suspended.

DRESS CODE: CLASSROOM/CAMPUS

Attire while in classroom/on campus is in compliance with the following code and with the BHSLR Dress code, as described in the Student Handbook: General Section. Faculty firmly enforce the codes and apply corrective authority for non-compliance.

Classroom/Campus Dress Code

Attire while in classroom/on campus is in compliance with the following code and with the BHSLR Dress code, as described in the Student Handbook: General Section. Faculty firmly enforce the codes and apply corrective authority for non-compliance.

Classroom/Campus Dress Code

BHSLR-SPN specific Classroom/Campus Dress Code policies are identified as follows:

Students are required to wear navy blue scrub attire while on campus and during all scheduled classroom/skills laboratory activities. Scrub attire must be neat, clean, in good condition, and have a professional fit, including but not limited to no tight fitting, gapping, low rise pants etc.

Tee shirts- plain white or navy blue with round or turtle neck (no wording). May have long or short sleeves. Must be under scrub top and tucked in. Tee shirts are optional wear.

Hose/socks are worn at all times. Hose without ornamentation are to be worn with skirts/dresses. Socks are to be white or similar coordinate color with the pants and without ornamentation, ie. bells, beads.

Leather or leather like athletic shoes are worn with scrub attire, but are to have white as the predominant color. Shoes are clean. Closed heels and toes.

Hair must be neat and clean. Style and color may not be extreme (Green, purple, blue etc colors) and must reflect a professional appearance as approved by faculty, coordinators, or Dean of Nursing.

Items not allowed:

Head covering of any type.

Sunglasses

Tattoos may not be visible.

Visible skin ornamentation/jewelry, including but not limited to mouth, nose, tongue, ear lobes or eyebrows. The face and head are to reflect a professional appearance as approved by Faculty, Coordinators, or Dean of Nursing.

Noncompliance with required dress code will result in inability to attend learning experience and will result in corrective action.

Students are not to wear campus scrub attire to the clinical unit.

Denim of any kind is not worn when a guest speaker is scheduled.

DRESS CODE: CLINICAL LABORATORY

Attire while in clinical laboratory is in compliance with the following code and with the BH Dress code, and with the

BHSLR Dress code, as described in the Student Handbook: General Section. Faculty firmly enforces the codes and apply corrective authority for non-compliance.

BHSLR-SPN specific Clinical Laboratory Dress Code policies are as follows:

Clinical Laboratory Uniform

The student identification badge must be worn at all times. It is to be on the upper left shoulder area with picture facing out. No decorative stickers or pins are to be worn on the identification badge.

Clinical laboratory uniform (tops, pants, skirts, dresses) is solid white in color; no other color edging or trim on the uniform is acceptable. Clinical laboratory uniform style is optional but must be professional in appearance, as determined by faculty. Solid white scrubs are acceptable uniform attire. A solid navy jacket is required.

Clinical laboratory uniform must be modest- i.e., no see through thin material, or excessively large or baggy uniforms. If a clinical uniform dress is worn, the dress or skirt must be knee length or longer. Undergarments of a color appropriate to skin hue, worn at all times and are not visible or showing through clothing.

In order to maintain a modest and professional appearance while performing patient care a plain white, round neck T-shirt worn under the top is advisable.

Shoes must be predominately white, leather or leather like in appearance, clean with closed toe and heel. Shoes are worn with white socks. Crock type shoes are **not** acceptable.

Clinical laboratory uniform styles that are **not** acceptable include, but are not limited to:

- Tops: midriff tops, halter tops, polo shirts, knit tops, tops with ruffles or lace, tops that “ride up” or “gap open” when conducting patient care, see through tops, or tops that are too tight.
- Pants: pants with knit cuffs, crop pants, Capri pants, gaucho pants, low rise pants, pants that expose undergarments when conducting patient care, pants that are too long or drag the floor or pants that are too tight.

Faculty has the discretion to determine if dress code is in compliance or is in any way inappropriate. Noncompliance with required dress code will result in inability to attend learning experience and may result in corrective action.

EDUCATIONAL PLAN

A student’s educational plan serves as a guide for the sequencing of the required courses reflected in the program of study. Faculty members assist the students in the development of the plan before the selected applicant begins classes. Changes in the plan may be requested in writing and submitted to the Coordinator prior to registration. Student must have coordinator’s written approval prior to deviation from the educational plan. Student deviation from the approved educational plan may result in inability to complete the program of student within identified timeframe.

Educational plans developed by faculty reflect all required courses for nursing enrolled students; this plan must be followed by students of all classifications.

ENROLLMENT IN NON-REUIRED COURSES

A BHSLR-SPN student that aspires to enroll in BH/PTC courses that are not part of the BHSLR-SPN required curriculum must obtain prior written approval from the Coordinator. A student is not encouraged to take non -required courses in addition to the program of study. The BHSLR-SPN program of study of is time intensive.

In the event that a student chooses to apply for enrollment in a non required course while enrolled in BHSLR-SPN, the school specific policies are as follows:

BHSLR-SPN student obtains the Enrollment in Non-Required Course Request form from Student Services in suite 1004. The student completes the top portion of the request form, signs, dates and submits the form to their respective advisor. The student's advisor completes and confirms the Academic Information section, then submits the complete form to the BHSLR-SPN Coordinator.

BHSLR-SPN Coordinator reviews the student request and makes a decision based on the following non- inclusive information:

1. Student must have a BHSLR-SPN Cumulative Grade Point Average of 3.0 or greater at the time of request. In the event that a BHSLR-SPN Cumulative Grade Point Average is not available, prior college experience will be considered.
2. Student must be in compliance with BHSLR and BHSLR-SPN policies.
3. Student may not be on academic or behavioral (attendance) probation(s).
4. Student may not take more than one non required course per semester. In the event that the semester I student is enrolled in two required general education and science courses; no non required course can be taken during the semester.

EVALUATIONS, CLINICAL

In the beginning of each nursing course, students receive a blank clinical evaluation form. This form is given to the students as a guide to performance expectations for each course with a clinical component. Faculty review this form and discuss the expectations prior to the first day of a clinical experience. Students are given an opportunity to ask questions and seek clarification as needed and are encouraged to use this as a guide throughout the course. Refer to semester packet.

Courses with a clinical component include:

Basic Nursing
Medical Surgical Nursing I
Nursing of Children
Nursing of Mothers and Infants
Medical Surgical Nursing II
Gerontological Nursing
Mental Health Nursing

EXAMINATIONS/QUIZZES

Student is required to take all examinations as scheduled. Daily or "pop" quizzes may be administered by course faculty. Make-up for examinations or quizzes will not be administered. Student's theory component will be calculated on total points of examinations and/or quizzes taken if an examination and/or quiz is missed because of an excused absence. No more than one (1) examination and/or quiz per course will be excused.

Examination(s) and/or quizzes missed due to unexcused absences will result in a score of zero (0) for the missed examination and or quiz. That score, a zero (0), will be calculated as such in computation of the theory component.

Examinations and quizzes remain property of the school. Students are not given copies of the examinations or

quizzes. Examinations and/or quizzes may not be photocopied or reproduced in any manner.

Students scoring below 77% on any examination are required to schedule an appointment with assigned advisor within two (2) days of posting of examination grade.

Students are required to take national standardized examinations as scheduled.

Student identification numbers are randomly assigned.

Process:

1. Examinations are administered according to schedule in each respective course syllabi. Quizzes may be unannounced.
2. Examination and quiz grades are recorded by the grade keeper.
3. Examination and quiz grades are posted according to individual student identification number.
4. Examination and quiz grades are posted within one calendar (1) week of administration date.

EXAMINATIONS/QUIZ CONDUCT

Examinations and quizzes are administered either by course faculty, adjunct faculty, test proctors, program coordinator, or others as designated in compliance with school policies.

Student is required to take all nursing course examinations and quizzes. Student records examination response on computerized answer sheet, unless otherwise directed. Student is required to follow all directions regarding examination and/or quiz. Examination responses not recorded as directed will be counted as incorrect. Examination responses that are not marked on answer sheet are counted as incorrect.

BHSLR student identification badge must be worn in order to take examinations/quizzes. Student identification badge, worn on upper left chest area, with picture facing out, is required before entry into the examination room and before taking examination or quiz.

Books, electronic devices, cell phones, backpack, purse, and other personal items are placed either in student locker, or car trunk.

Nonprogrammable calculators are permitted if previously approved for use by course faculty, adjunct faculty, program coordinator or program directors.

A late arriving student will be seated by course faculty, adjunct faculty, or program coordinator. Examination will begin and end promptly at scheduled time. A late arriver will not be allowed to enter the classroom for testing, if a classmate has exited the examination room. No additional time will be allowed to complete the examination for late arrivers.

Student will be prepared for examination by bringing a sharpened #2 pencil. No food, drink or other items will be permitted on student desk during examinations/quizzes.

BHSLR-SPN examinations are the property of the school and only viewed by students for administration of the examination or for review. Student(s) are not given copies of examinations and examinations may not be photocopied or reproduced in any manner.

Cover sheets and scratch paper will be provided, if indicated.

EXAMINATION REVIEW

Examination review will be scheduled by semester leader or course instructor. Student identification badge must be worn in order to review examinations/quizzes. Student will use ink pen or high-lighter to mark correct answer.

Examination material will not be taken from examination room. Student submits questions/comments in writing to appropriate course instructor. Test review attendance is optional.

FUNERAL LEAVE

Up to three (3) days funeral leave may be granted by coordinator or designee upon the death of a member of the student's immediate family. This includes mother, father, child, husband, wife, brother, sister, father-in-law, mother-in-law, grandparent, or grandchild. If approved funeral leave days are excused, they will not be counted against total days missed.

Student makes written request to coordinator for absence due to a death in the immediate family, to be excused as funeral leave. Refer to examination policy located herein, regarding missed examinations.

Verifiable documentation of death of immediate family member may be required and submitted to course faculty when returning from funeral leave.

Student and faculty plan make-up assignments. Student will not be charged for make-up work in the event of approved funeral leave.

GRADING SYSTEM

Theory Grade Calculation

Faculty evaluate student learning and assign a final theory grade at the end of the nursing course based on student achievement of course objectives in the classroom.

Final theory grade is assigned according to the grading scale below:

<u>Grade</u>	<u>Percent Range</u>	<u>Value</u>
A	94-100	4
B	86-93	3
C	77-85	2
D	70-76	1
F	0-69	0
I	Incomplete	0
W	Withdraw	0
WX	Administrative Withdraw	0

Process:

To calculate a course examination score, daily quiz, and or course assignment score the following process is used.

A raw score (RS) is first determined by use of an instructor prepared "key" and the student's answers on the exam or assignment. The number of incorrect answers are counted, and subtracted from the total number of items (questions) on the examination,

daily quiz, and or course assignment, resulting in a raw score (see example below):

50	items on the exam or assignment
<u>10</u>	incorrect responses
40	Raw Score

To calculate the theory grade the following process is used:

All raw scores on course examinations, quizzes, assignments, are summed to determine the total points achieved.

	<u>Points Achieved</u>	<u>Points Possible</u>
Example: Quiz 1	5 points	5 points
Exam 1	72 points	100 points
Exam 2	34 points	35 points
<u>Exam 3</u>	<u>85 points</u>	<u>100 points</u>
Total Points	196	240

To determine the theory grade, the sum total of the raw scores (total points) achieved is divided by the sum total of points possible and carried to the 100th place and then rounded to the tenth (10th) place. If the score is 0.05 or greater round up, and if it is less than 0.05 round down.

Example: $196 \div 240 = 81.66 = 82\% = C$

Final Theory grade= C

The final theory grade is recorded on the final course grade record , and recorded on the official transcript of the school.

Skills Laboratory Grade Calculation

Faculty evaluate student learning in the nursing skills laboratory (NSL) and determine a final nursing skills laboratory grade to be assigned at the end of a nursing course. The grade is based on professional faculty judgement of the student's achievement of the behavioral indicators which measure specific course objective(s).

The skills laboratory evaluation (SLE) is the evaluation tool used to document the students performance in the NSL setting and ultimately the student's achievements of the behavioral indicator(s) which measure specific course objective(s). The SLE and evaluation of performance may be shared with the student as determined by the nursing course faculty. The student's performance is assigned a quality performance rating symbol using the following schedule:

<u>Quality Rating</u>	<u>Rating Symbol</u>
Satisfactory Progress	SP
Unsatisfactory Progress	UP
Incomplete Progress	IP
Not Applicable	NA
Not Observed	NO
Opportunity Not Available	ONA

Process:

In the vertical column of the SLE, a rating symbol, from the schedule shown above, is used to denote the students quality performance of each behavioral indicator and is placed in the

vertical column of the SLE.

If a student achieves a quality performance rating symbol of “IP” or “UP” for any behavioral indicator in the vertical column of the SLE, the rating symbol of “IP” or “UP” is assigned to the correlating course objective.

The faculty review the rating symbol assigned to specific course objective and after analysis determine a final rating (FR) for specific course objective. Determination of the FR is accomplished by evaluating the student’s progressive development and overall performance in the nursing course. The following schedule is used to document the FR.

<u>Quality Rating</u>	<u>Rating Symbol</u>
Satisfactory	S
Unsatisfactory	U
Incomplete	I

The FR rating symbol for specific course objective is then documented on the nursing skills laboratory Final Grade Record.

If a student receives a FR rating symbol of Incomplete “I” for the performance of an objective, it is recorded on the skills laboratory evaluation as the symbol “I”. An incomplete “I” grade indicates the student has not yet fulfilled requirements and that either additional course work is needed or make-up work is to be completed as determined by faculty.

An “I” grade becomes a final grade of “F”, if incomplete course work is not completed within established time-frame.

A student must achieve Satisfactory “S” for all course objectives to receive a “S” for the final nursing skills laboratory grade.

A final nursing skills laboratory grade of “S” is required to progress and/or promote.

A final grade of “U” (Unsatisfactory) in a course skills laboratory component becomes a final course grade of “F”.

The final nursing skills laboratory grade is recorded on the final course grade record.

Clinical Laboratory Grade Calculation

Faculty evaluate student learning in the clinical laboratory (CL) and determine a final clinical grade to be assigned at the end of a nursing course. The grade is based on professional faculty judgement of the student’s achievement of the behavioral indicators which measure specific course objective(s).

The clinical evaluation (CE) is the evaluation tool used to document the students performance in the CL setting and ultimately the student’s achievements of the behavioral indicators which measure specific course objective(s). The (CE) of performance is shared with the student as determined by the nursing course faculty. The student’s performance is assigned a quality performance rating symbol using the following schedule:

<u>Quality Rating</u>	<u>Rating Symbol</u>
Outstanding	OP
Above Satisfactory Progress	ASP
Satisfactory	SP

Unsatisfactory	UP	
Incomplete	I	
Not Observed	NO	
Not applicable	NA	
Opportunity Not Available		ONA

Process:

In the vertical column of the CE, a rating symbol, from the schedule shown above, is used to denote the students quality performance of each behavioral indicator and is placed in the vertical column of the CE.

If a student achieves a quality performance rating symbol of “IP” or “UP” for any behavioral indicator in the vertical column of the CE, the rating symbol of “IP” or “UP” is assigned to the correlating course objective.

The faculty review the rating symbol assigned to specific course objective and after analysis determine a final rating (FR) for specific course objective. Determination of the FR is accomplished by evaluating the student’s progressive development and overall performance in the nursing course. The following schedule is used to document the FR.

<u>Quality Rating</u>	<u>Rating Symbol</u>
Satisfactory	S
Unsatisfactory	U
Incomplete	I

The FR rating symbol for specific course objective is then documented on the nursing clinical laboratory Final Grade Record.

If a student receives a FR rating symbol of Incomplete “I” for the performance of an objective, it is recorded on the clinical laboratory evaluation as the symbol “I” . An incomplete “I” grade indicates the student has not yet fulfilled requirements and that either additional course work is needed or make-up work is to be completed as determined by faculty.

If a student receives an IFR rating symbol of unsatisfactory “U” for the performance of any course objective, achievement of the “U” rating will convert to a course grade of “F” and will be reflected on the official transcript and the student will neither progress nor promote.

A student must achieve Satisfactory “S” for all course objectives to receive a “S” for the final nursing clinical laboratory grade.

A final nursing clinical laboratory grade of “S” is required to progress and/or promote.

A final grade of “U” (Unsatisfactory) in a course clinical component becomes a final grade of “F”.

The final nursing clinical laboratory grade is recorded on the final course grade record.

Incomplete Grade

The assignment of an incomplete grade is at the discretion of the faculty. An incomplete “I” grade indicates the student has not yet fulfilled course requirements and that either additional course work is needed or make-up work is to be completed. A final judgement and final grade determination of the student’s performance is made after the

student fulfills the specified course work.

The incomplete grade must be cleared by satisfactory completion of all course work designated in writing and within the established time frame set by faculty.

If the incomplete grade is not cleared as described above, the "I" shall be converted by the faculty as either a final grade of "F" for theory, clinical laboratory, and nursing skills laboratory if applicable.

All policies related to expenses incurred by the school associated with a student's clearance of an incomplete grade apply. The Business Office must be contacted by the student for information and payment of the fee. Payment must be made prior to beginning the specified course work. The receipt is displayed to the faculty member before the specified work is allowed.

Student suspended for investigative purposes, who are reinstated, will be allowed to make up incomplete course work without payment of applicable fees. Dismissed students will not be allowed to make up incomplete course work.

Clinical Laboratory and Nursing Skills Laboratory Progression

A student must progress each clinical week toward achievement of each course objective, and by course end, have at least performed each course objective with a satisfactory "S" rating. The clinical rating symbols of SP, UP, IP, ONA, NA, and NO are documented to denote progression of the student toward achievement of the course objectives by a quality level or performance.

The final rating for clinical laboratory and nursing skills laboratory are determined using the following criteria.

Satisfactory "S": by course end, the student has achieved each course objective by performing with progressive learning:

- all behavioral indicators related to each course objective,
- each course objective without either continual faculty guidance, intensive supervision or maximum assistance from others.

Unsatisfactory "U": by course end, the student has not achieved each course objective by performing with progressive learning:

- all behavioral indicators related to each course objective,
- consistent progress in the performance of each behavioral indicator related to a course objective,
- each course objective with either continual faculty guidance, intense supervision or maximal assistance from others.

An established process is followed by both faculty and students in the notification of the student of outcome grades (progressive or final):

- student progress in the performance of behavioral indicators, which measure clinical objectives, must be a Satisfactory "S", is documented by the clinical faculty on the clinical evaluation and is reviewed by student at time specified by faculty.
- documentation of Unsatisfactory "U" progress on the clinical evaluation is shared with a student according to an established process. The student

signs and dates the documentation and is given opportunity to ask questions and write comments.

- at the end of the course, each student reviews the final clinical evaluation and receives a copy of the final grade record.
- afterward, the faculty member records and files final grades and clinical evaluation according to established policies and processes.

Grade Point Average Calculation

The school faculty adopted the following GPA schedule, policies and formulas for the calculation of Total Value Points (TVP), Grade Point Average (GPA) and Cumulative Grade Point Average (CGPA):

Grades and corresponding value points:

Grade	Value Points
A	4
B	3
C	2
D	1
F	0
I	0

The Total Value Points (TVP) is based on the final grades of all general education and science courses, the required theory component of nursing courses and other required courses reflected in the program of studies.

The Grade Point Average (GPA) is based on the theory component final grades of all courses completed at an established point-in-time. The statistic reflects all general education and science courses (either taken or transferred), theory component final grades of all required nursing courses and the final grades of all other courses required in the program of studies. The CGPA is typically calculated at the end of a semester.

The highest final grade of a repeated required course is included in the calculations of the TVP, GPA and CGPA.

Cumulative Grade Point Average Calculation

Total Value Points (TVP) are calculated by multiplying the number of course credits by the corresponding value points (VP) of the final theory component letter grade(s) of each required course completed and the summing of the products. The resulting sum total is the TVP as presented in the following example:

Course	Credits	Grade (Value)	Value Points
PNSG 1508 Medical Surgical Nursing I/lab	8	A (4)	32
PNSG 1304 Pharmacology I	4	B (3) =	12
Total	12	12	44

Course credits (theory component)are multiplied by the course grade value points = Value Points. The resulting

value points (products) are summed $32 + 12 = 44$ Total Value Points.

Grade Point Average (GPA) is calculated by dividing the TVP by the total credits (theory component) completed. The dividend is the GPA. Divide total Value Points (44) by the total credits (12) = 3.66 GPA.

The GPA (dividend) is recorded to the hundredth (two integers past the decimal point to the right. Rounding is not used in the calculation.

The Cumulative Grade Point Average (CGPA) is calculated by dividing the TVP by the theory component total credits of all required courses in the Program of Studies completed to date. The dividend is the CGPA.

Approved transfer grade for Anatomy & Physiology will be calculated into GPA at the end of Semester I.
Approved transfer grade for Nutrition, will be calculated into GPA at the end of Semester I.

Clinical Laboratory and Nursing Skills Laboratory grade are a component of the course.

The original course grade and remediation grade achieved shall be reflected on the official school transcript. The remediation grade will be utilized to calculate the GPA and CGPA in addition to other final grades. All final course grades are reflected on the official school transcript.

HONORS

BHSLR-SPN recognizes student academic excellence at Commencement. The following Academic Honors scale is used:

Schools of Nursing

Honors	=3.00-3.74
High Honors	=3.75-4.00

IDENTIFICATION BADGE

A student is identified by a student identification badge (ID) worn at all times in upper left shoulder area, with photo, name and title visible. Failure to wear approved ID Badge as required will lead to corrective action by the school.

MAKE-UP CLINICAL

The opportunity to make-up missed clinical may be available to an absent student. Faculty and students have the primary responsibilities in the make-up clinical work. Faculty have the discretion in permitting the student to make-up missed clinical. The student has the responsibility to follow-through and succeed. Two factors have paramount importance in the consideration of a make-up request: the student's follow-through with policy regarding the absence and the student's previous attendance record. All absence is subject to verification by faculty or school administration. A fee is charged to cover the school's expense associated with the make-up work or examination preparation, proctoring and grading. The following process is followed:

1. The student completes the make-up course work request form obtained from the forms rack in Student Services, Suite 1004.
2. Submit the completed form to the respective faculty for consideration and action.
3. If approval is granted, the student pays the required fee established by administration pays the Business Office and obtains a receipt. No personal checks are accepted.
4. The student displays the receipt to the course faculty.
5. Course faculty have full authority to approve a student's request to make-up a missed clinical. A

student with a pattern of missing clinical may be denied approval.

6. Failure to attend, prearranged make-up on the day and time designated by course end will result in an absence for that day and potential failure to progress.
7. Make-up fees are established by the Business Office with faculty input. In general, the fees charged are based on the administrative cost per hour for examination make-up and per clock hour for clinical time made-up.
 - 7.1 Students are not charged the make-up fee in the following circumstances:
 - absence occurred as a result of faculty instructing student to leave learning activity related to student health issue,
 - absence supported by physician or nurse practitioner documentation,
 - death of immediate family member,
 - hospitalization of student,
 - court appearance or jury duty,
 - military purposes.

MEDICATION ADMINISTRATION SAFETY

The administration of a chemical substance in the form of medication to a patient or individual in a healthcare clinical setting is one of the most critical of nursing interventions. A student must learn this important fact early in the program. In the effort to reinforce faculty teaching, facilitate student learning and protect patients, the school gives special attention to this aspect.

A student shall adhere to the principles and processes of safe medication administration to patients according to established school processes and clinical setting policies.

A student failing to demonstrate the principles and the processes of safe medication administration in clinical performance has committed a medication error from the faculty's perspective.

A student prevented from breaching principles and processes of safe medication administration to a patient, by faculty or clinical staff intervention, has committed a medication error from the faculty's perspective.

Process:

A student demonstrates medication administration competency at designated times during the program of studies.

Prior to administering medications in the clinical setting, a student is required to attend PYXIS inservice, achieve one hundred (100%) percent on PYXIS examination, complete PYXIS tutorial, attend medication skills lab, and achieve eighty five (85%) percent, within two attempts on premedication examination.

A student that does not achieve one hundred (100%) percent on the PYXIS examination must retake the examination until a score of one hundred (100%) percent is achieved.

A student absent from PYXIS inservice or medication skills lab must complete these required activities before attending clinical.

A student that does not achieve eighty five (85%) percent, within two attempts on the premedication examination has not met the course requirements for Pharmacology I, may not administer medications and does not progress.

The clinical instructor schedules student medication administration experiences. A student is to notify assigned clinical instructor regarding administration times and changes in medication orders.

A student is required to demonstrate knowledge regarding medication action, side effects, therapeutic effects, antidotes, if applicable, lab values, if applicable, nursing interventions, and other information as requested by clinical instructor.

A student who commits a medication error receives an unsatisfactory (U) on the objective and indicator(s) for safe medication administration on the Clinical evaluation for course clinical week.

A student who commits a medication error will:

1. immediately report medication error to a clinical instructor and the registered nurse responsible for care of the patient. Failure to report a medication error to clinical instructor will result in corrective action,
2. follow the clinical instructor's guidance regarding nursing intervention for patient safety,
3. contact the physician as directed by the clinical instructor,
4. document the medication error according to respective clinical setting policy. The clinical instructor will co-sign all documentation related to the error.
5. submit original documentation to supervisor of clinical setting and a copy of the documentation to the clinical instructor,
6. receive an unsatisfactory progress (UP) on course objective for safe medication administration on the record of clinical progress for that course clinical week,
7. meet with BHSLR Medication Safety Committee as determined by faculty and comply with outcome decision of committee,
8. satisfactorily repeat the demonstration of medication administration process in the presence of a clinical instructor,
9. be restricted to medication administration only in the presence of a clinical instructor prior to approval for resuming independent medication administration in a clinical setting with patients,
10. pay associated fee in the event that additional clinical instructor time is needed in the form of clinical supervision, tutoring, or nursing skills laboratory teaching. The fee is due prior to the experience. Personal checks are not accepted.

The Medication Safety Committee:

1. has authority to determine number of unsafe medication administrations charged to a student in a given incident. The number determined by the committee is recorded content in the student's academic file.
2. may recommend non-progression, probation, suspension or dismissal of a student citing "unsafe nursing care" as the rationale.
3. will review each medication error and may require additional learning opportunities. The student's respective clinical evaluation objective will reflect incomplete progress "IP" until all additional learning opportunities are satisfactorily completed and submitted to the Medication Safety Committee Chairman.

The following occurrences are defined as unsafe medication administration (list is non-inclusive):

- incorrect medication,
- incorrect dosage,
- incorrect day or time,
- incorrect patient,
- incorrect route of administration,
- incorrect transcription of physician's medication order,
- incorrect documentation of administration of medication,
- incorrect I.V. regulation,
- incorrect I.V. rate calculation,
- omission of medication as ordered,
- medication administered to patient who has a recorded allergy to the medication,
- medication not ordered by physician is administered to patient,
- failure to provide nutritional supplement (snacks, fluids) as scheduled,
- failure to follow clinical setting procedure(s) for administration of medications,
- faculty intervention preventing a student from breaching principles of safe medication administration to a patient,
- student prevented from breaching principles or processes of safe medication administration by nursing staff intervention,
- failure to follow any of the "eight rights".

NURSING STUDENT ROLE: MEDICATION ADMINISTRATION

Nursing student adheres to the policies and procedures of the assigned clinical institution, and administers medication (s) only within the student's scope of practice.

Process:

Student administers medication(s) under the supervision of the clinical instructor. Student may not administer medication(s) under the supervision of any staff nurse. Student administering any medication(s) without prior clinical instructor notification will be subject to corrective action.

Student demonstrates medication administration competencies as required according to BHSLR Medication Administration Policy located herein.

Student is accompanied by assigned clinical instructor during medication administration and must have instructor review medication(s) prior to administration. Senior student may, at faculty discretion, independently administer medication(s) (with exception of subcutaneous, intramuscular or intravenous medications as indicated below) but must always have instructor review medication(s) prior to administration.

Student is always accompanied by assigned clinical instructor for administration of any subcutaneous, intramuscular or intravenous medication (s). Student does not administer any Intravenous Push (IVP) medication(s). Student may flush Intravenous lines for patency per assigned clinical institution policies.

The patient is the primary responsibility of the staff Registered Nurse/Care Coordinator; the RN/Care Coordinator makes the final decision on appropriateness and level of any procedure to be performed.

Student may not copy any part of the Medication Administration Record (MAR).

Student documents medication administration according to assigned clinical institution policy.

Student receives a temporary PYXIS number each day from clinical instructor, as indicated, and must obtain patient medication(s) by using their own student temporary PYXIS number and follow all BH policies related to medication administration utilizing the PYXIS System.

Student does not witness any consent form and does not take any telephone or verbal order from a physician. Other restrictions may apply on a unit specific basis and may include medication administration, procedures, and other activities.

In the event of accidental needle stick or exposure, student must report all blood and mucosa exposure to clinical instructor and comply with all policies regarding the follow-up.

PROGRAM EFFECTIVENESS

It is paramount that the school maintain an ongoing program effectiveness evaluation process. Several factors comprise the process, primary being student and graduate outcomes; faculty teaching effectiveness; curriculum evaluation(s); school policies; employer satisfaction with graduates and approval and accrediting outcomes. Thus, students and graduates have an important role in the measurement of program effectiveness

Students evaluate each course instructor, course content, and clinical site through use of evaluation forms. The evaluations are managed according to BHSLR Policy and established process. The student is assured of anonymity, thus encouraging his or her participation in the evaluations. If a student is of the opinion that the process should be improved the director of BHSLR welcomes suggestions for improvement.

The processes, summarized, presents an objective process through which students provide subjective data in the measurement of teaching behaviors and course evaluations. At course end, evaluation forms are available online for an designated time period. Each student enrolled in a BAPTIST HEALTH Schools Little Rock (BHSLR) course is required to complete the respective course, faculty and clinical site evaluations prior to receiving a final course grade.

Seniors provide additional data through an established process.

PROGRESSION AND PROMOTION

Progression and promotion policies give direction for the retention of high quality student, as he/she progresses through the program of studies. In addition, the individualized Educational Plan received on entry serves as a “roadmap” and must be followed as written.

A student is expected to satisfactory fulfill requirements and follow guidelines for each course as identified in the course syllabi and packets in order to progress within, promote through and graduate from the program of study.

1. Course requirements include clinical laboratory, if applicable, skills laboratory, if

applicable and theory grades, course objectives, special assignments, attendance and other projects and activities, etc. as assigned. See specific course syllabi.

2. The minimum final grade in all courses for progression is a 'C' (77%) in theory and "S" in the clinical laboratory and if applicable nursing skills laboratory.
3. Each student receives an Educational Plan that must be followed to ensure progression and promotion through the program of study and graduate on schedule.
 - 3.1 If a student does not follow the Educational Plan their status will be changed by the coordinator from full-time to academic suspension.
 - 3.2 If a student chooses to not follow the Educational Plan, and does not receive written approval from respective coordinator for the change, neither progression nor promotion will occur, until the student provides evidence that he/she is in compliance with the Educational Plan.
 - 3.3 Written approval to deviate from the Educational Plan from the respective coordinator is required. Otherwise, the student's continuation in the program and planned graduation is at risk.
4. A student who does not achieve the minimum required grade of 'C' in a nursing course, and later on does not achieve the minimum final grade of 'C' in the same or a different nursing course may not continue in the program and will not be eligible for reentry.
5. A student who does not achieve a final grade of 'C' in a required general education or science course, repeated once will be reviewed by the appropriate selection committee for continued enrollment.
6. A student who does not achieve the minimum required grade of 'C' in a repeated nursing course will be reviewed by the selection committee for continued enrollment and reentry. The final grade considered is the grade made prior to grievance or remediation.
7. A student not making the minimum final grade, and then remediates the nursing course successfully, may progress or promote, but the original final course grade before grievance or remediation remains as the focus of policy.
8. Only those students who have submitted an official college transcript reflecting a final grade of 'C' or higher in an approved Anatomy and Physiology (full body system) course and received approval, prior to registration for semester I, will be exempt from taking BHSLR-SPN Anatomy and Physiology.
9. A student who fails to achieve a final course grade of 'C' (77%) in a repeated nursing course the second time will be academically dismissed.
10. A student who fails to achieve both a final course grade of 'C' (77%) in a nursing course, and subsequently fails to achieve a final course grade of 'C' (77%) in a different nursing course will be academically dismissed.
11. Criminal background checks (Arkansas and FBI) are completed at designated times during the year (to comply with clinical facility requirements) and prior to graduation in compliance with Arkansas State Board of Nursing requirements.
12. Progression or promotion is possible on outcome of Academic Grievance with an amended

grade.

Progression

Freshman:

1. A freshman may progress to the sophomore status after satisfactory fulfillment of all freshman requirements.
 - 1.1 A freshman must satisfactory fulfill PNSG 1111 Basic Nursing course requirements.
 - 1.1.1 A freshman must achieve a “C” (77%) in the theory and a “S” (Satisfactory) nursing skills laboratory component of Basic Nursing in order to progress to Basic Nursing clinical component.
 - 1.1.2 A freshman may progress to PNSG 1408 Medical Surgical Nursing I, PNSG 1501 Gerontological Nursing, and PNSG 1601 Mental Health Nursing after satisfactory fulfillment of PNSG 1111 Basic Nursing course requirements.
 - 1.2 A freshman must be enrolled in PNSG 1204 Pharmacology I, PNSG 1303 Anatomy and Physiology and General Education and Science Nutrition course.

Sophomore:

1. A sophomore may progress to junior status after satisfactory fulfillment of all sophomore level requirements.
 - 1.1 A sophomore must satisfactory fulfill course requirements for all semester I courses in order to progress to semester II.
 - 1.2 A sophomore must achieve a final grade of ‘C’ in all semester I courses and general education and science Nutrition course, and an “S” (satisfactory) in all course clinical and skills laboratory components.
 - 1.2.1 A student must submit an official college transcript, reflecting a final grade of “C” or higher, in an approved Nutrition course prior to registration for and progression to BHSLR-SPN semester II.
 - 1.2.2 A student enrolled in general Education A & P II must submit an official college transcript, reflecting a final grade of “C” or higher, in an approved Anatomy & Physiology II course prior to registration for and progression to BHSLR-SPN semester II.
 - 1.3 Take required national standardized examinations and complete required remediation, if applicable.
 - 1.4 Current Immunization record,
 - 1.5 Current CPR.

Junior:

1. A junior may progress to senior status after satisfactory fulfillment of all junior level requirements.
 - 1.1 A junior must continue to be enrolled in Semester II courses at the eleventh week of study.

1.2 Current immunization record.

1.3 Current CPR.

Senior:

1. A senior may be promoted to graduation candidate status after satisfactory fulfillment of all senior course requirements, graduation requirements, school requirements and BH requirements (if any).

1.1 A student must satisfactory fulfill course requirements for all semester II courses in order to progress to graduate candidate status.

1.2 Take required national standardized examinations, complete required remediation, if applicable.

1.3 Achieve a composite score at or above the national average on the final National Standardized examination within identified attempts.

1.4 Current immunization record.

1.5 Current CPR.

Graduate:

1. A graduation candidate achieves graduate status after all requirements for graduation are fulfilled.

2. A student must satisfactorily fulfill school requirements for freshmen, sophomore, junior and senior classification in order to progress to graduate candidate status.

Non-graduate:

A student not clearing for graduation, because of non-academic reasons which include, but not limited to: photograph for composite display; financial outstanding balance; official transcript; not providing all documents and fees for NCLEX and Arkansas Temporary Permit and License; and additional information being required by the school shall be reclassified to non-graduate status, thirty (30) calendar days after commencement date. Thereafter, all reentry policies and requirements apply .

A student must complete the program of study according to their Educational Plan initiated on entry. Remediation of deficiencies (Incomplete "I" grade, community service hours, other) within two (2) months after the scheduled graduation date, will be required, at student expense, to complete additional academic requirements as determined by the faculty. The additional academic requirements may include, but not be limited to, the following:

1. retake nursing course(s) with success,
2. retake National Standardized examination if required by coordinator, and achieve required score,
3. retake National Standardized examinations if required by coordinator, and achieve required score,
4. complete supervised hours of NCLEX-PN examination practice questions on the computer,
5. complete an additional comprehensive nursing review course, approved by the school, successfully and satisfactorily with full attendance record,

6. follow through on BHSLR-SPN Job Interview Record,
7. settle all outstanding financial balances to BH, BHSLR and BHSLR-SPN,
8. complete official school clearance process,
9. achieve a required score, as determined by the faculty, on a nursing comprehensive exit examination if required by coordinator.
10. remediate additional nursing courses as specified with success.

Once the deficiencies and additional academic requirements and all school requirements for graduation are completed satisfactorily, the non-graduate status will be removed and the student will be considered by the faculty for graduate candidate status.

Promotion:

A student may be promoted through the program of study and graduate on the basis of faculty recommendation for graduate candidate status by the following criteria:

1. achieve at least a minimum final grade of “C” in all required courses, “S” in all course clinical and skills laboratory components,
2. fulfill school requirements, and
3. fulfill graduation requirements.

Freshman:

1. current immunization record,
2. current Tuberculin Skin Test or chest x-ray with annual questionnaire.
3. Hepatitis B vaccine or signed waiver. A series of three inoculations started prior to first clinical laboratory experience is required ,
4. current cardiopulmonary resuscitation (CPR), Healthcare Provider Course, American Heart Association standards, prior to first clinical laboratory experience,
5. take required national standardized examinations, complete required remediation, if applicable.
6. be in full compliance with Educational Plan.

Sophomore:

1. current immunization record,
2. current Tuberculin Skin Test or chest x-ray with annual questionnaire,
3. Hepatitis B vaccine or signed waiver. A series of three inoculations started prior to Basic Nursing clinical laboratory experience is required ,

4. current cardiopulmonary resuscitation (CPR), Health Care Provider Course American Heart Association standards, and present card prior to first clinical laboratory experience,
5. take required national standardized examinations and complete required remediation, if applicable,
6. be in full compliance with Educational Plan.

Junior:

1. current immunization record,
2. current Tuberculin Skin Test or chest x-ray with annual questionnaire,
3. Hepatitis B vaccine or signed waiver. A series of three inoculations started prior to Basic Nursing clinical laboratory experience is required ,
4. current cardiopulmonary resuscitation (CPR), Health Care Provider Course, American Heart Association standards and present card prior to first clinical laboratory experience,
5. take required national standardized examinations and complete required remediation, if applicable,
6. be in full compliance with Educational Plan.

Senior:

1. current immunization record,
2. Hepatitis B vaccine or signed waiver. A series of three inoculations started prior to Basic Nursing clinical laboratory experience is required,
3. current cardiopulmonary resuscitation (CPR), Health Care Provider Course, American Heart Association standards and present card prior to first clinical laboratory experience,
4. community service, 3 hours,
5. complete first employment intent survey form,
6. achieve the required score on the National Standardized Exit Examination.
7. A senior who does not complete the Educational Plan as scheduled and did not receive written approval from Coordinator to deviate will be reclassified from a full-time student to a non-graduate. Application for reentry is required in order to be considered for resumption of study. Reentry is not guaranteed.

Commencement Requirements:

Beginning June 2010 and thereafter, BHSLR will hold one annual commencement ceremony in June.

BHSLR-SPN June graduates have the following requirements:

1. participating in commencement rehearsal,

2. wearing attire at rehearsal and ceremony required by school, and
3. failure to participate in commencement ceremony will jeopardize graduate status.

BHSLR-SPN December graduates have the option to participate in commencement the following June.

Graduation Requirements

Each student must fulfill established requirements for graduation from the program.

1. Meet Progression and Promotion requirements for Program of Study.
2. Graduate candidate status conferred by faculty.
3. Complete Educational Plan as scheduled.
4. Take all required standardized examinations, complete required remediation, if applicable and make the required score on the final National Standardized examination.
5. Complete Graduate Clearance Process.
 - 5.1 Financial account: No outstanding balance with BH, BHSLR or BHSLR-SPN.
 - 5.1.1 Only cash, money order or certified check, no personal check, is accepted within thirty (30) days of graduation.
 - 5.2 School Office: Completion of class officer clearance form, if applicable.
 - 5.3 Learning Resource Center and BHMC Library : Return all books and reference material to the BAPTIST HEALTH libraries or learning resource center.
 - 5.4 Identification badge: Returned.
 - 5.5 BHSLR Counseling Center: No outstanding balance.
 - 5.6 Parking Fine(s): No outstanding balance.
 - 5.7 Curriculum complete: Satisfactory demonstration of Program Objectives, Essential Functions and Technical Standards. Curriculum completed according to Progression and Promotion Policy.
 - 5.8 Computerized charting: Password removed.
 - 5.9 Locker Clearance: Locker clear and lock removed.
 - 5.10 Graduation requirements complete.
6. Have class and individual composite pictures taken.

7. Complete three (3) community service hours and submit documentation verifying completion.
8. Participate in the Commencement Ceremony, wearing approved attire and following dress code guidelines, as required based on month of Graduation.
9. If a legal alien, submit current documents so reflecting.
10. Complete the Criminal Background Check Report (CBCR), as required by Arkansas State Board of Nursing; (Schools of Nursing specific).
11. Provide evidence of first employment placement if contracted in the BAPTIST HEALTH Student Loan Program (BHSLR-SPN); evidence consists of a “Job Interview Log” reflecting position offer and acceptance.
12. The school’s diploma, pin, and transcript are not to be released until all of the above requirements have been met.
 - 12.1 An additional processing fee is charged if Graduation requirements are not completed on published end of program date.

School Requirements:

1. Entry tuberculin skin test,
2. Hepatitis B vaccine (series of three inoculations started prior to first clinical laboratory experience); a student who chooses not to receive the hepatitis B vaccine will sign a waiver of school responsibility.
3. Current Cardiopulmonary Resuscitation (CPR), Health Care Provider completion, American Heart Association Standards, prior to first clinical laboratory experience, and must be current during all clinical experiences,
4. Meet attendance requirements,
5. Settle financial obligations with school and BAPTIST HEALTH,
6. Complete clearance process(es),
7. Exit interview, as indicated,
8. Participate in commencement ceremony, as required based on month of Graduation,
9. Personal and professional student development: Overall student behavior record reflects: BHSLR-SPN Values; BH Code of Ethical Conduct, a positive and cooperative attitude; capability to benefit from counseling or advising services; compliance with policies of BH , BHSLR-SPN, clinical and other affiliating agencies, and demonstrate an understanding of the scope of practice for the practical nurse,
10. Graduate candidate status conferred by faculty,
11. Complete all national standardized examinations as scheduled. See specific course syllabi,
12. Complete three (3) community service hours,

13. Settle financial obligations with BH, BHSLR and BHSLR-SPN, and
 - 13.1 Provide evidence of placement for first employment if on BH student loan program.

REENTRY FOR RESUMPTION OF STUDY

Re entry Standards are identified in the general Section of the *Student Handbook*. The following BAPTIST HEALTH Schools Little Rock- School of Practical Nursing information applies:

A student who has discontinued study, for any reason must be approved for reentry by the selection committee before resuming study. Approval for reentry is on a competitive basis and is not guaranteed for any student discontinuing study. A student, who is academically dismissed, administratively dismissed or who has been in the program twice does not qualify for reentry. When reviewing reentry applicants, the selection committee considers, but is not limited to, the following criteria:

1. Overall academic performance and professional development prior to discontinuance of study.
2. Evidence of behaviors that exemplify school Values prior to and during absence from school, and
3. Available space in nursing course for which former student is requesting reentry with currently enrolled students given priority.

Qualified applicants who are approved for re entry will repeat all courses in the semester to which they return. The only exceptions are approved transfer credit in Anatomy and Physiology, and/or Nutrition. All grades previously received will be voided and the final course grade will be that achieved at the end of the semester which is being repeated.

Students returning to study from approved medical leave of absence repeat all courses in the semester to which they return. Qualified applicants for reentry who have been out of school for more than one (1) year must repeat the entire program. Reentry into this program is possible once. Applicants approved for reentry will pay all related expenses.

Process:

1. A student discontinuing study for any reason completes withdrawal prior to applying for reentry.
2. Applicant for reentry completes Request for Reentry form.
 - 2.1 Request for Reentry form must be submitted at least one (1) month prior to requested reentry date.
3. Selection committee reviews applicant reentry request and determines if applicant qualifies to be reviewed for reentry.
 - 3.1 Applicants requesting reentry who were academically dismissed, administratively dismissed or who have been in the program twice do not qualify for reentry.
 - 3.2 Applicants who qualify for reentry are scored according to reentry scoring protocol requirements.
4. Applicants requesting re entry are not given preferential treatment.

5. Re entry packet is obtained.
 - 5.1 Completed reentry packet must be returned to admission office prior to registration for resumption of study.
 - 5.2 Required reentry packet material includes:
 - 5.21 Ability to perform essential functions statement,
 - 5.22 Official transcript if applicable, reflecting additional college credit(s) earned during absence from school,
 - 5.23 Affirm informed statement contracts with signatures,
 - 5.24 Provide any other information and materials as requested by school, and
 - 5.25 Documentation of receipt of TB skin test with in thirty (30) days prior to reentry.
6. Reentry students who were academically suspended or withdraw failing are placed on academic probation with identified conditions and time frame.
 - 6.1 Selection committee may establish additional probationary conditions as appropriate.
 - 6.2 If a reentry student who is on academic probation is academically unsuccessful in any course dismissal will be recommended.

REMEDICATION

A student who does not achieve a final theory grade of "C" or above for a nursing course may be offered a remediation opportunity to achieve the minimum required score. Remediation must be approved by the respective course faculty and approval is given on individual basis. Reentry students are not eligible for remediation of nursing courses.

- Process:**
1. The BHSLR-SPN freshman student is eligible for theoretical, abbreviations, pharmacology math, terminology and military time remediation, if the student is satisfactory (S) in all other Nursing Skills Laboratory (NSL) procedures and/or Clinical Laboratory (CL).
 2. The BHSLR-SPN sophomore student is eligible for theoretical remediation, if the student is satisfactory (S) in both CL and/or NSL.
 3. The BHSLR-SPN junior or senior student is eligible for theoretical remediation, if the student is satisfactory (S) in both CL and/or NSL.
 4. The student upon satisfactory attendance and achievement of written requirements set forth in the remediation plan may progress to the next nursing course. In the event that the remediation opportunity includes an examination opportunity, the required score may be higher than "C" (77%) as determined by faculty.
 5. The original final nursing course grade achieved shall be reflected on the official transcript, but not used in the calculation of the GPA.

6. The highest remedial grade a student may achieve as a **final course grade** is "C" (77%) and will be recorded on the official school transcript and used in the calculation of GPA.
7. The student must achieve a final remedial grade of "C" (77%) in order to promote and/or progress.
8. The remedial grade achieved shall be reflected on the official transcript and shall replace the original course grade.
9. In addition to other final grades, the remedial grade and other grades will be utilized to calculate the GPA and CGPA.
10. Students who choose remediation work including testing waive the right to file grievance for the remedial grade and the original course grade. The waiver is signified by a Waiver signed and dated by the student. The waiver is required before remediation work is approved to begin. A waiver is signed reflecting student agreement and voluntary choice of remediation in lieu of a grievance.
11. Students who choose remediation will pay a fee of \$25.00 per remediation opportunity.
12. A student may choose, if offered, to remediate a total of twice while in the program of study; academic suspension policy will be in effect thereafter.

STANDARDIZED EXAMINATIONS

Evolve Reach Specialty Examinations

The purpose of each specialty examination is to measure student comprehension of nursing knowledge and evaluate their knowledge in relation to phases of the nursing process, areas of client needs, critical thinking skills, and specific nursing topics.

Students are required to take all specialty examinations as scheduled for progression in the program and promotion to graduate candidacy status. The specialty examination dates are published in the syllabi of the respective course. Semester I specialty examination(s) and remediation must be complete before progression to Semester II, refer to progression and promotion policy. Semester II specialty examination(s) and remediation must be complete before progression to graduate candidate status.

Students not taking all specialty examinations and/or not successfully completing required remedial work will be considered for academic action by the school.

Process:

1. The student is required to take all Specialty Examinations. The examinations are scheduled throughout the program of study, beginning with freshman and continuing to the senior level.

The cost of the specialty examinations are included in the schools Testing Fee paid at each semester registration.

2. Student will be required to independently access and complete remediation material as identified on the Specialty Examination results or specified by course faculty.

Student will be required to submit printed documentation of completion of remediation activities to designated faculty.

3. Student must not schedule an employment orientation and/or an employment start date until all Specialty Examinations have been taken and remediation activities have been successfully completed.

Evolve Reach HESI Exit Examination

Achievement of a score at or above 850 within three (3) attempts is required for successful completion of Medical Surgical Nursing II.

The HESI Exit examination will be scheduled, by faculty, during the last semester. The student is required to take the HESI Exit examination on the scheduled date. Student not taking the HESI Exit examination on the scheduled testing date is subject to Academic Action by the school. Student who does not take the examination on the scheduled testing date will pay a fee determined by Administration for rescheduling and proctoring.

Students who do not achieve the required score on the first attempt will be scheduled for two (2) additional testing opportunities prior to scheduled program completion date. Students who do not achieve the required score on the first examination is required to successfully complete remediation activities, as directed by faculty, prior to retesting.

The cost of the first HESI Exit examination is included in the Testing Fee and paid at semester II registration. The cost of all additional HESI Exit examination retake, and remediation activities, are the responsibility of the student and are due and payable prior to retake and/or remediation activity. **The cost of each HESI Exit examination retake is \$50.00.**

Students who do not achieve the required score after the third attempt shall be designated as a non-graduate. Student shall be considered for placement on academic suspension for a defined period of time with conditions. Non-graduate policy will be applicable. Students not successful shall be considered for reentry as appropriate per reentry policy.

STUDENT CLASSIFICATION

An individual is classified according to the level of study associated with the program. Student classification is determined by placement in curriculum.

1. Students in semester I, enrolled in PNSG 1111 are classified as freshman.
2. Students in semester I, having successfully completed PNSG 1111 and enrolled in remaining semester I courses, are classified as sophomore.
3. Students in the first eleven weeks of semester II are classified as junior.
4. Students in the last eleven weeks of semester II are classified as senior.
5. Nursing: enrolled in nursing courses; considered a full-time student.
6. Non-graduate: not enrolled in active study and has not completed the program of studies, or has not fulfilled all requirements for graduation.
7. Graduates: Successfully completed the program of studies and fulfilled all requirements for graduation.

STUDENT DIRECT EXPENSE

The direct cost for nursing education, in addition to tuition, course fees, textbooks, uniforms and resource materials, includes expenses for other services and activities. See BHSLR – Schools of Nursing Cost Plan located at

http://www.bhslr.edu/programs-of-study/cost-sheets/Cost_Sheet-2009-2010-Nursing.pdf

Student direct cost for the overall program expenses are collected at registration(s) and include required tuition and fees payable to BAPTIST HEALTH Schools Little Rock- School of Practical Nursing.

Fees include cost associated with such items as registration, criminal background check. Activity, parking, technology, testing, special events and Criminal background Check for licensure purposes.

Expenses paid to outside vendors include cost associated with immunizations, textbooks, supplies and professional fees. Professional fees include National Council Licensure Examination-Practical Nursing (NCLEX-PN), Arkansas State Board of Nursing (ASBN) Licensure application, and temporary permit fee.

Cost for required college level general education courses are paid directly to the college or university of attendance.

In the event that a student is approved to take general education course Anatomy & Physiology II during BHSLR-SPN Semester I, there is a lab fee payable to BAPTIST HEALTH Schools Little Rock for Pulaski Technical College science courses taken on the BAPTIST HEALTH Schools Little Rock campus.

TRANSFER CREDITS

Transfer credit may be accepted for Anatomy & Physiology and Nutrition course(s) in which a final grade of “C” or above is achieved at an accredited college or university. Transfer credit must be approved by coordinator through established process. Course content must be substantially equivalent to course required by BHSLR-SPN.

Process:

Applicant/student requesting transfer of credits must submit the following required documents to the coordinator.

1. Complete Transfer Request Form requesting transfer credit for specific course.
 - 1.2 Official college transcript with final grade of ‘C’ or higher in course(s) being reviewed.
 - 1.3 Course description(s) from the college or University, if requested.
2. Coordinator reviews submitted materials and makes final decision regarding approval/denial of transfer credits.
3. Course credit will be awarded after submission and approval of all required documents.
4. Applicants who are granted transfer credit are exempt from approved course(s).

PROFESSIONAL CURRICULUM

The BAPTIST HEALTH Schools Little Rock- School of Nursing Professional Curriculum is available in the BHSLR All Schools Catalog at [Www.baptisthealthschools.org](http://www.baptisthealthschools.org).

STUDENT GOVERNANCE

1. The school’s form of student governance is a Student Government Organization.
2. The BHSLR grant each class the privilege to self-govern within the Values, policies and philosophies of the school and BH.
3. School policies and Student Government Rules of Procedure provide the framework for conduction of business, projects and activities.
4. The BHSLR grant to each class the privilege of representation on all BHSLR standing committees.
5. Class presidents represent their class on the Director’s Student Council.
6. Class presidents serve as student representatives on the grievance panel for situations involving a student with the same classification on their respective campus.
7. Class meetings and activities are scheduled by the president when classes are not in session. School policies and student class government rules of procedure provide the framework for conduction of business, projects and activities.
8. A class may conduct fund raising activities as approved by the director or designee. Funds raised are reconciled and deposited into the treasury according to rules established by the class and approved by the rules of procedure.

STUDENT GOVERNMENT RULES OF PROCEDURE

The School provides the opportunity for students to participate in their own government into the overall operation of the school and have input in the management of the School. Through the participation a student experiences leadership, citizenship development and the democratic process as part of their professional and personal growth. In addition, the school demonstrates a high degree of value and esteem held for students.

ARTICLE I- NAME

The name of the student government organization shall be the BHSLR-SPN Student Government Organization.

ARTICLE II- PURPOSE

The purpose of Student Government Organization is to provide an arena for conducting class business, participation on school committees, development of leadership skills and to make contributions to continuous improvement of the school.

ARTICLE III- GOAL

The overall goal of the Organization shall be to encourage each student to participate in the democratic process working together toward common goals and problem solving.

ARTICLE IV- FUNCTIONS

1. Elect class officers to facilitate democratic leadership;
2. Conduct class meetings in an organized manner;

3. Promote active student participation through open communications;
4. Represent class members during committee meetings.

ARTICLE V- MEMBERSHIP

Membership in the Organization shall consist of students from BHSLR-SPN and faculty class sponsor(s). Each class elects their own officers. Faculty class sponsor(s) volunteer for the position.

ARTICLE VI- OFFICERS

Officers of each class shall be elected. Officers must maintain at least a 2.0 grade point average (GPA). Officers include:

1. President,
2. Vice President,
3. Secretary/ Treasurer
4. Historian/ Social Director, and
5. Faculty Class sponsor (s)

Any elected class officer may attend meetings and participate on the BAPTIST HEALTH Schools Little Rock Student Development Committee, the BAPTIST HEALTH Schools Little Rock Retention and Special Events Committees.

ARTICLE VII: DUTIES OF OFFICERS

Section I: President

The President shall:

1. schedule and preside over class meetings,
2. serve as organizer of meetings,
3. establish agenda,
4. facilitate communication between class, sponsor, school administration,
5. schedule meeting with sponsor and announces to class,
6. serve on grievance panel according to BAPTIST HEALTH Schools Little Rock policy,
7. sign all class meetings minutes with secretary,
8. vote only to break tie,
9. count any monies collected with secretary/ treasurer and faculty class sponsor,
10. cosign all receipts of funds collected by class,

11. attend BHSLR-SPN meetings, as indicated,
12. complete officer clearance form prior to graduation.

Section 2: Vice President

The Vice President shall:

1. in the absence of the president, assume all duties, authority and responsibility of the president,
2. assist with organization of class meetings,
3. assist president with agendas and handouts, for meetings,
4. maintain order during meetings,
5. assume the responsibility of the presidency, permanently, if the president cannot retain the position,
6. vote on all issues,
7. attend Special Events Committee meetings,
8. complete officer clearance form prior to graduation.

Section 3: Secretary/ Treasurer

The secretary/ treasurer shall:

1. record the minutes of each class meeting,
2. read minutes of prior meeting,
3. maintain class records,
4. attend all class meetings or arrange for one of the officers as a substitute to take minutes,
5. correspond with designated persons on behalf of class,
6. manage class funds in an orderly, ethical, trustworthy, and legal manner,
7. establish and maintain a receipt book with sequential numbers on the receipts (obtained from school office),
8. open a checking account in the name of the class designated by its graduation year (two signatures are required for deposits and withdrawals: The Treasurer's and one signature of faculty class sponsor name must be on account),
9. reconcile all funds collected and co-sign receipts with BAPTIST HEALTH School Little Rock, bookkeeper,
10. balance receipt book and reconcile with faculty class sponsor each month and verify balance with deposits reflected on the monthly statement provided by the bank,
11. completes officer clearance form prior to graduation.

Section 4: Historian/ Social Director

The historian/ social director shall:

1. assist in planning of student activities,
2. chair committee to compile historical records, as indicated,
3. obtain pictures of all peers for scrapbook, if voted to maintain book,
4. present scrapbook to school on completion of school year,
6. complete officer clearance form prior to graduation.

Section 5: Faculty Class Sponsor

The faculty class sponsor shall:

1. be a faculty member employed by BHSLR-SPN that has volunteered for position,
2. preside over election of officers and further class business,
3. attend all class meetings,
4. serve as resource for all activities,
5. notify class officers of BHSLR meeting dates,
6. count, and reconcile all funds collected with Secretary/ Treasurer, and President, monthly.
7. deposit all income into the class treasury checking account within one week of collection.

ARTICLE VIII- TERMS OF OFFICERS

Officers elected for the Organization shall serve the entire length of the program of studies.

ARTICLE IX- MEETINGS

Activities and meetings shall be conducted within the framework of school policies and Student Government Rules of Procudeure. Attendance is strongly suggested in order to fulfill the purpose and achieve the Goal of the Student Government Organization. Class meetings and activities are scheduled by the President when course classes are not in session.

ARTICLE XI- QUORUM

Members attending Student Organization Meetings shall be considered quorum.

ARTICLE XII- ELECTIONS AND VOTING

SECTION 1- ELECTIONS

Nominations by the student body shall be made. Officers shall be elected within four (4) weeks following entry registration.

SECTION 2- VOTING

Elections shall occur through secret ballot. Voting outcomes shall be tallied by two faculty class sponsors. A report shall be prepared by faculty class sponsor and submitted to program director, assistant director, and director.

ARTICLE XIII- VOTING ON CLASS ISSUES

The majority rule will prevail during class meetings. A minimum vote of 51% of class members attending will determine passage of a motion. Class business voting is by show of hands, voice vote or as designated by president. Certain business matters requiring a vote can be made by secret ballot if agreed upon by 51% of those present.

ARTICLE XIV- VACANCY OF OFFICE

In the event the president is unable to complete service of elected term of office, the vice president shall assume full duties and responsibilities of the office. A special election shall be held to fill the position of vice president within two (2) weeks after the presidential vacancy occurs.

In the event of vacancies in other offices, a special election shall be held within two weeks after the vacancy occurs.

ARTICLE XV- CLASS DUES

The decision to collect class dues and the amount thereof, shall be voted on by each class, for that class, at the first class meeting.

ARTICLE XVI- AMENDMENTS

Student Government Rules of Procedure may be amended, adopted or repealed as recommended by the student body at any student organization meeting or regular class meeting. The recommendation then is forwarded to the respective BHSPN team for consideration. Revisions shall become effective after adoption by the total student body, BHSLR –SPN faculty Organization and final approval by the Dean of Nursing.

ARTICLE XVII- PARLIAMENTARY AUTHORITY

Roberts Rules of Order, current edition, will prevail as Parliamentary authority during meetings.
